

Bryan Fay

Experience

DealerOn, Derwood, MD Remote — Web Designer (Contract)

February 2025 - August 2025

- Designed and migrated 2,500+ webpages into a proprietary CMS, ensuring responsive layouts and consistent visual presentation across devices.
- Collaborated with project coordinators to deliver high-quality digital content aligned with client expectations and branding guidelines.
- Managed and tracked design tasks through Salesforce, maintaining efficiency across multiple concurrent projects.
- Improved overall user experience by refining layouts, styling, and content structure during site migrations.
- Worked within a fast-paced team environment to meet strict deadlines while maintaining quality standards.

Mean Guppy, Buffalo, NY Remote — Software Engineer

June 2022 - March 2024

- Developed dynamic, user-facing interfaces using React and TypeScript, focusing on intuitive design and smooth user interaction.
- Built and maintained scalable component libraries with an emphasis on consistency and reusability across projects.
- Enhanced accessibility by implementing WCAG standards, improving usability for a broader audience.
- Collaborated with cross-functional teams to ensure design and functionality aligned with user needs and product goals.
- Conducted component testing to ensure stable, high-quality user experiences.

Self-Employed, Remote — Freelance Web Developer

January 2021 - June 2022

- Partnered with clients to design and develop custom websites tailored to their brand identity and user goals.
- Created wireframes and visual mockups to guide design direction and secure client approval.
- Advised on UX, layout structure, and hosting solutions to optimize performance and usability.
- Built responsive, mobile-first websites that improved accessibility and user engagement.
